

Pithapur Rajah's Government Degree College

Department of Biotechnology

Report on National Science Day Celebration

28-02-2024

Here is a report on National Science Day celebrated at Pithapur Rajah's Government Degree College, Department of Biotechnology on February 28:

On February 28, the Department of Biotechnology at Pithapur Rajah's Government Degree College celebrated National Science Day with great enthusiasm and zeal. The day was celebrated to commemorate the discovery of Raman Effect by Indian scientist Sir C.V. Raman on February 28, 1928.

The celebration began with an inaugural function, where the principal of the college, faculty members, and students gathered to mark the occasion. The Head of the Department of Biotechnology delivered a special lecture on the importance of science in daily life and its contributions to society. The students presented various scientific exhibits and models that showcased their understanding of different scientific concepts.

The department also organized a quiz competition, where teams of students from different departments participated and showcased their knowledge of science and biotechnology. The winners were awarded prizes and certificates.

To make the event more engaging, a Biotechnology laboratory exclusively to carryout Practicals for UG students was inaugurated by the college Principal and the students who stood top in their programmes.

Overall, the National Science Day celebration at Pithapur Rajah's Government Degree College Department of Biotechnology was a huge success, inspiring students to pursue careers in science and biotechnology.
