Clean & Green Programme

18th JULY 2026

1	Date	18 July 2026
2	Conducted through DRC/JKC/ELF/Dept.etc	Department of Mathematics
3	Nature of Activity	Clean & Green
4	Title of Activity	Clean & Green
5	Resource person	Sasa Coordinator, HOD & Staff members of Mathematics
6	No.of volunteers participated	50
7	Activity outcomes:	• The college campus became neat, clean, and eco-friendly. • Students developed awareness about cleanliness and environmental protection. • Volunteers learned the importance of discipline, teamwork, and social service. • The programme encouraged a sense of responsibility towards the college environment.
8	Name of the lecturer who planned and conducted the activity	Students & Staff Members of the Mathematics Department
9	Signature of the HOD	

CLEAN & GREEN PROGRAMME

Aim of the Programme

The main aim of the Clean & Green Programme was to maintain cleanliness in the college campus and to create awareness among students about environmental protection and sustainable living.

Objectives

1. To keep the college campus clean and hygienic.
2. To spread awareness about environmental cleanliness and greenery.
3. To encourage students to avoid plastic and follow eco-friendly practices.
4. To develop leadership, teamwork, and social responsibility among the students.

Outcomes

- Active participation of Mathematics staff and students in SASA programmes.
- Improved cleanliness and hygiene in the department.
- Enhanced awareness about environmental conservation.
- Encouraged teamwork, discipline, and social responsibility among students.

Introduction

Cleanliness and environmental protection play a vital role in maintaining a healthy society. A clean environment prevents diseases and creates a positive atmosphere for learning. A green environment ensures ecological balance and sustainability. The department of Mathematics organized a Clean & Green Programme in the college campus to motivate students to take responsibility for their surroundings.

Description of the Programme

As per the guidelines and instructions of the Principal, the Department of Mathematics actively participated in the SASA programmes conducted in the college. All the faculty members and students enthusiastically took part in the activities and extended their wholehearted support to make the programmes successful.

In addition to participating in the SASA programmes, the Department of Mathematics organized a **Clean and Green Programme** at the departmental level. The staff and students jointly cleaned the classrooms, corridors, department surroundings, and campus premises.

They also removed waste materials, maintained cleanliness, and promoted environmental awareness.

The programme aimed to create awareness about the importance of cleanliness, environmental protection, and sustainable practices among students. The participants demonstrated a strong sense of responsibility towards maintaining a clean, healthy, and eco-friendly campus.

The Department of Mathematics is committed to continuing such activities in the future to promote environmental consciousness and social responsibility among students.

Activities Undertaken

- Cleaning of classrooms, corridors, and open areas
- Collection and segregation of waste
- Awareness talk on Clean & Green practices
- Slogan shouting and poster exhibition

Benefits to Students

- Improved leadership and organizational skills
- Enhanced environmental awareness
- Developed cooperative and service-minded attitude
- Gained practical experience in community service

Learning Experience

Through this programme, students learned that maintaining cleanliness and greenery is a continuous process. The activity helped them understand their role in protecting the environment and contributing to a sustainable future.

Conclusion

The Department of Mathematics successfully conducted the Clean and Green Programme in accordance with the Principal's guidelines. The programme was completed successfully with the active participation and cooperation of all the faculty members and students, contributing to a cleaner, greener, and healthier campus environment.
